Fresh Update

MAY

NEW THIS MONTH

BACK IN SEASON

May is a great month to get excited about summer produce. The expected warmer weather brings on a wealth of local produce, the pick of the bunch being **Asparagus**; grown locally in Sopley alongside their lovely outdoor rhubarb. **Country Fare** continues to bring first of the season produce. For the month ahead:

- Tom Berries** - Yellow and Red Available
- UK Salad** - Local Fancy Leaf from Haywards, UK Little Gem's cos and Iceberg. We will also see the first of the U.K. Baby leaves; Rocket, spinach and watercress.
- Garlic Scapes**—very short season (10 days)
- New Forest Rainbow Chard**—will be available in May

Dan Tanner's

New Forest Asparagus

New Forest Asparagus, grown in Sopley in the New Forest. Their asparagus is regarded as some of the best in the country. Country Fare is proud to supply Dan Tanner's produce, we are a foodservice provider that is passionate about local produce who partners with local growers. The traditional asparagus season is short, it will finish towards the end of June.

FRUIT

Local New-Forest Strawberries have started, this award winning strawberry is packed full of flavour. We hope to have our **chefs day out** again this year, date to be confirmed via social media.

All other Berries are available with daily deliveries in the market. **Red Currants** are still very expensive. **Spanish/French Peaches, Nectarines, Red Cherries** and **Apricots** should start this month, fruit is hard and still expensive.

Melons – New season Spanish **Galia, Cantaloupe** and **Watermelon**. We have seen some very high prices on melons over the winter due to weather impacting crops. We are hoping as we get into Spanish season things will improve.

Imported Apples are excellent quality, sourced from Southern hemisphere.

2024

British Tomato Fortnight

27th May – 9th June

This two week event, the British Tomato Fortnight will be celebrating this amazing product in conjunction with the '**British Tomato Growers' Association**'. We will be sharing fantastic recipes, ideas for how to use tomatoes and some fascinating insights into how British Tomato growers achieve such amazing tasting tomatoes. Please follow us on social media **@ftdorset** to be updated and to be part of this exciting fortnight.

Did You Know?

British tomato production amounts to about 100,000 metric tonnes per year - about a fifth of the total volume of tomatoes sold in the country through the year, and up to a half in the summer.

SALAD

Cucumbers we are stocking a **naked cucumber** again this year this is **plastic free** and we are pleased to remove this waste from the chain. On average this takes out **3500** single pieces of plastic a week from our chain.

British English Salad - **Lollo Rosso, Oak, Biondi, Iceberg, Flat Lettuce, Little Gem** and **Cos** will start towards the end of the month, Weather permitting. Planting conditions haven't been favourable this spring due to the heavy levels of rainfall, so we could see a delay.

Baby Leaves – We will see **Uk Spinach, Rocket, Red Leaf** and **Red Chard** start. **The Watercress Co.** will have local standard and baby cress.

VEGETABLES

Rainbow Chard – Local Hampshire, is due to start this month. At this time of year root vegetables like Parsnips, **Swede, Celeriac** and **Turnips** are all best avoided but are still available. Old crop **English Carrots** will finish this month; we work closely with Bartlett's to make sure old season crop isn't too much of an issue.

English Spring Cabbage are fantastic, new season **Primo Cabbage** due in mid-month. **Savoy** is still being imported from **Portugal** and **Spain**, but are more expensive due to import. **Overwintered U.K. Cauliflower** is excellent and price is still very reasonable. New season summer **English Cauliflower** is due in at the end of the month, but be warned it will be a bit yellow and small.

Potatoes are still difficult and prices are extremely high for good quality produce. New season is due July/August dependant on planting. There has been issues getting chits into the ground with the saturation levels.

Fresh Peas in the pod, **Broad Beans** and **Runner Beans** have arrived from Spain/Italy, the local produce is due in next month.
