Fresh June Update

New This Month

BACK IN SEASON

The warm summer months should bring an abundance of excellent **British** and **Local Produce** that will add a seasonal flavour to any menu. Many of our local producers in **Hampshire, Dorset & Isle of Wight** supply us daily with **seasonal produce**, Country Fare will continue to source the best quality local produce at the best price. New this Month:

- Isle of Wight scraping potatoes (Charlotte)
- U.K. Raspberries and Blueberries
- Peas in the Pod

There are
35,000
hectares of peas
grown in the UK
each year, equivalent to about
70,000

football pitches. This
produces

160,000

tonnes of frozen
peas - that's

2 billion

80 gram portions

The first peas were frozen by
Clarence Birdseye who

Invented the 'plate freezer' to preserve
serve foods in the 1920's

Plan Ahead

Great British Pea Week

Supporting British &

At Country Fare we work with our long standing supplier to gain the best produce throughout the season.

Summer brings some amazing British produce into the market and we support as much local and UK grown produce as we can. From Potatoes to Lettuce and Blueberries to Herbs we feel its important to support farmers and growers in this country.

Nutbourne
TOMATOES
now in!

We ♥ LOCAL

BLACKMOOR ESTATE

Dan Tanner's

Fruit

Local Dorset and Hampshire Strawberries are superb and will be available from now to November. **English Raspberries** and **New Forest Blueberries** are also very good. **Tayberries**

from **Sopley Farm** will be available mid June for a short season. **Trehane's Dorset Blueberries** will be available mid to late July. **English Gooseberries** will appear in the market in June, availability will be patchy due to the short season and lack of growers... so get them while you can. **Peaches** and **Nectarines** are improving. The first of the **Donut** or **Flat Peach** have started they are superb. **Spanish Cherries** have started and quality and size this year are very good. U.K. shouldn't be far behind them. **Apricots** have also begun, price on the stone fruit should ease as volumes

EUROPEAN BLACK SUMMER TRUFFLE (tuber *Aestivum*) or The summer truffle, found in almost all European countries. It has a rich woody aroma with flavours of garlic, wild mushroom and earthy hazelnut undertones.

AUSTRALIAN BLACK WINTER TRUFFLE (tuber *melanosporum*) considered the best black truffles in the world. These come into the country in June and have an amazing scent and flavour. They command a high price but you won't find a better black truffle.

Salad

Tomatoes are excellent, from small **Cherry Vine** to large **Plum Tomatoes**. **Local Nutbourne tomatoes** are new to us this year and have been stunning so far. **English Salad** is fantastic; Worcestershire grown **Iceberg**, **Cos** and **Little Gem**; are harvested freshly every day. **Local Spinach**, **Roquette**, **Watercress**, **Lollo Rosso**, **Oak Leaf** and **Biondi** are excellent now and are relatively low in price so it's time to jazz up your salads. **New Forest Summer herbs** are at their best. **New Forest Edible Flowers** make a lovely addition.

Vegetables

Local Isle of Wight Asparagus is still excellent, supply will last until summer solstice, sadly it will end and the only option will be **Peruvian**. **English Broccoli** - 4.5kg iced has just started. **Cauliflower** has been stable, **summer Cauliflower** can be small and slightly yellow. The new kids on the block this month are **English Peas in the Pod**, **Broad**, and **Runner Beans**. **French Globe Artichokes** are big-hearted with fleshy petals and a peppery flavour, we are also able to offer a **Local Smaller Globe Artichoke**. **Purple Sprouting** is still out this month. **Chantenay Carrots** are now from Spain, the English season has finished. **Local Jerusalem Artichokes** will be available mid June. **New Season Local Kale & Spring Greens** have been arriving daily. **Root Vegetables** (**Carrots**, **Parsnips** etc), **Potatoes** and **Onions** can be difficult at this time of year with shortages of products and high prices, caution using these on the menu until new season start in July/ Aug.

New Season Mids are a great alternative to old season potatoes with light skin and creamy flesh!

Scrigni® con burrata di Puglia (with Apulia burrata cheese)

Pasta ingredients: durum wheat semolina, barn eggs.

Filling ingredients 67%: burrata cheese 61%, ricotta, extra-virgin olive oil, bread, food gelatine, barn eggs, salt, pepper.

FILLING DETAILS

a fresh, creamy filling where the delicate spiciness of extra virgin olive oil accentuates the sweetness of the burrata, the true centrepiece of this delicacy.

Weight of the box: 2 kg

Cooking time: 2 minutes in boiling water

Portion yield after cooking: +20%
