HARTRIDGES

FAMILY OWNED SINCE 1882

PREMIUM SOFT DRINKS WITHOUT THE PREMIUM PRICE

Founded in 1882, Hartridges is a fifth-generation British soft drinks maker with a long-standing reputation for drinks full of flavour and character. Still proudly family owned, the brand brings together over 140 years of heritage with a fresh, contemporary spirit. Each recipe is crafted using quality, all natural ingredients and a steadfast commitment to consistency, guided by a belief in premium drinks without pretension.

As the UK's oldest independent soft drinks company, Hartridges has spent generations refining its sparkling and juice ranges to meet the expectations of today's customers. Known for their craftsmanship and timeless appeal, these are drinks that perform well on shelf and at point of sale. Each bottle carries a clear sense of provenance and care, helping retailers offer something distinctive and trusted. Stocking Hartridges means offering a heritage brand with lasting consumer loyalty, classic flavours and a reputation that encourages repeat purchase time after time.

WHY CHOOSE HARTRIDGES

More profit

Premium products at competitive wholesale pricing - deliver stronger GP across your sites.

Price protection

Not available in supermarkets - your customers can't price-compare. Maintain premium pricing without margin pressure.

Low risk

Tried and tested flavours from a 144-year old family business. Guests recognise quality, you get reliable repeat orders.

trewithen

DELICIOUSLY CORNISH DAIRY

Our Story

Our story began in the heart of Cornwall in 1976, when our founders Bill and Rachel Clarke started farming in the Glynn Valley. In 1994 the Clarke family began bottling milk after their children were in bed and delivering it at dawn. This business grew into Trewithen Dairy, a name synonymous with quality, care, and local Cornish products.

In 2024, Trewithen Dairy joined forces with Ehrmann, a 3rd generation family owned dairy company, becoming 'Ehrmann Cornish Dairy'. This development brought investment, innovation, and opportunity, while keeping Cornish roots firmly at the centre. We remain committed to supporting local farmers, and crafting dairy that celebrates the unique taste of Cornwall.

Our Mission

To craft dairy that connects people to Cornwall and to everyday moments that matter.

Feel Good Moments

We bring that Cornish holiday nostalgia to everyday life. Celebrating the joy of creating, sharing, and savouring food moments that make people smile.

Proudly Cornish

We know our craft and we keep it honest. No fuss, just made with loving care. Every drop, dollop, and spoonful is made with pride, the proper Cornish way.

Proper Moreish

Taste is everything. Our products are rich, creamy, and full of flavour. We talk about food in a way that tempts and delights. Every bite should feel like a little indulgence.

Together Through Food

We believe food brings people together. We celebrate family breakfasts, festive bakes, indulgent cream teas, and making those little daily kitchen rituals even more joyful.

As we look to the future, we want our name to reflect what makes us truly special: our Cornish heritage and joy we bring through food. That's why Trewithen Dairy is becoming Cornish Dairy Co. This name is proudly about who we are, tells our story, and is a promise to keep delivering the same exceptional quality to your table.

FRESH PRODUCE

MARKET REPORT

April will be a dynamic month bursting with fresh, new seasonal delights, Jersey Royals, English Asparagus, Local Wild Garlic leaves, Local Strawberries and some early entries of English Salad.

French Apples will start to finish towards the end of April with a shift to **Southern Hemisphere Apple**. **Chilean Granny Smiths** and **South African Cape Apples** are some of the varieties that will replace the **French Apple**. **Melon** and **Orange** prices often become expensive in April as South and Central American supplies dry up.

Local Strawberries are back and looking and tasting amazing! 'Driscoll's' **Spanish Strawberry**

Fruit

ries are also available and will switch to best U.K. shortly. **Spanish Papayas** are very good now, and taste great when sprinkled with Lime Juice. **Easy-Peelers** become more difficult with southern hemisphere fruit, they start with Satsuma's, move over to best Nadorcott's.

Avocados will go through a bad patch as the Spanish/Israeli season ends. Fortunately, the **South African** season is due to start mid-month and the fruit is always excellent.

Sadly **Yorkshire and Wye Valley Forced Rhubarb** will finish this month, replaced by **Local Outdoor Grown**, the outdoor product differs to the forced with thicker skin and less sweet. **Dutch Forced** still available by pre order only.

Kanzi Apples are new to the line up. A cross between **Royal Gala** and **Braeburn**. It boasts lovely crispy texture, super juicy flesh and a slightly tart flavour for the perfect balance.

Local Asparagus is now available, Country Fare is now working with two local growers to ensure that we have enough produce. The season will end Late June.

Jersey Royal Potatoes currently sold in 6kg boxes this will change to 10kg bags later this month. There are now less and less growers of this amazing potato so prices start high.

Salad

There may be a few periods of short supply in April as we change over from **Spanish to Dutch/English** produce. Prices can be unpredictable; however by the end of the month, when the English crop arrives, prices will settle down. New season **Dutch Aubergines, Bell Peppers, Tomatoes and Cucumbers** can vary in price due to **lower volumes at the start of the season.**

Local West Sussex heritage tomatoes begin. The grower provides single and mixed varieties. Last season was a big success and we are looking forward to another season!

These have been grown in **Jersey** for over one hundred years and now have **EU Protected Food Name Status** or **PDO**. This scheme identifies regional and traditional foods whose authenticity and origin can be guaranteed. Under this system a named food or drink registered at a European level will be given legal protection against imitation throughout the EU. The **Jersey Royal** brand attracts this level of protection because of the unique way in which it is grown, cultivated and harvested and the PDO ensures that only **Royals** grown in **Jersey** can be called '**Jersey Royal**'. The Jersey soil is light and well drained and many farmers still use seaweed harvested from Jersey beaches as a natural fertilizer (it is known locally as **Vraic**). The main outdoor crop is planted from January and harvesting usually begins in April through to the end of June. The peak of the season is May.

Vegetables

English Rainbow Chard has started. **Local Wild Garlic** is excellent for soups or a great alternative for making a Pesto. New season **French Carrots** and **French Turnips** are a real April treat. New season **Portuguese/ Spanish Savoy** and **Hispi Cabbage** are looking great with good colour and size. **UK English Spring Greens** are available daily. **Spanish Standard & Broccoli Tender stem** are difficult with lower volumes available and higher prices. A great alternative is **Purple Sprouting Broccoli** some of which is local.

Cauliflower will switch from Local Isle of Wight to a mixture of **U.K and France**. We see the return of the local produce within the summer months. **Onions** will start to move to long distance imports due to U.K. stored crop running down. **Large Spanish Onions** have already moved over to cold store crop with slightly higher price, but excellent quality.

Root Vegetables such as **Carrots, Parsnips and Potatoes** have seen very stable conditions due to good growing and harvesting conditions. Currently prices are holding and stock quality is good.
