# "Fresh thinking DRIVES US FORWARD"

Our passionate team deliver the finest products, the freshest ideas and unrivalled personal service – and we're not standing still

**W**hen we first launched Country Fare back in 2004 with a small team, we had high hopes and huge ambition for the business we wanted to build.

Passionate about food, we wanted to create a foodservice business to be proud of. We wanted to be the home of fantastic flavour and the finest ingredients and a champion of delicious local produce, all while supporting hospitality and catering customers with exceptional service and support.

Since those early days of our small warehouse in West Howe, Bournemouth, we have flourished to become one of the major foodservice suppliers in the south of England. Now we are one of the few remaining independent, family run fresh produce suppliers and we remain just as passionate about the food we provide as well as the food we eat. Our team believe that good food brings real joy and we believe we can make a real difference.

Where we really stand out is our understanding of the pressures of a busy kitchen and the need to protect your margins. We are proud to work in close partnership with our suppliers – local, national and global – to ensure that we can source the products you need

while demanding great prices in the market. This unrelenting focus on value ensures that you can focus on what matters most – delighting your customers.

## PARTNERSHIP

We pride ourselves on our longstanding relationships with suppliers. We have always believed in trust, connection and collaboration and, as a result, our relationships are so much more than a transaction; they are a very real partnership that delivers results for everyone.

We are committed to championing local producers who put their heart and soul into producing the most amazing fruit, vegetables, dairy and breads, just to name a few. Even our more exotic ingredients

"We believe  
that good  
food brings  
real joy"

## THE FRESH THINKING TRADE SHOW

A must-attend event for culinary professionals, food enthusiasts, and professional chefs and caterers, our annual trade show is bursting with the latest innovation, trends and products to inspire your menus and wow your customers.

Guests can enjoy live cooking demonstrations from renowned chefs showcasing the latest techniques and trends, as well as experience the latest taste innovations and explore the most recent product launches.

are carefully selected from the country in which they're grown.

And this focus on continual excellence has paid off. Feedback from customers makes us very proud indeed. From our 'amazing' telesales team to our 'always on time' deliveries, our 'great communication' and 'brilliant range', we are delighted that you love the way we work and the contribution we make to the success of your business.

However, we are not standing still. While we have achieved incredible growth over the past two decades, we still have ambitious plans and we are committed to continually improving, adapting and evolving to offer the best possible products, the best possible prices and the best possible service.

## THE COUNTRY FARE VALUES

We are passionate about food

We go above and beyond

We are honest and transparent

We have a can-do attitude

We value each other

## DOING THE RIGHT THING

Doing the right thing is always at the front of our minds. We endeavour to have a positive impact wherever we can. From the new carbon-neutral depot we built in 2025 to how we support good causes, our community and our team, we believe in putting people and the planet first.

# ALLERGENS

## What you need to know

Food law\* requires that UK food businesses provide essential allergy information on all prepacked and non-prepacked food and drink that contain any of the 14 known allergens and share this with customers

In the UK, there are 14 allergens recognised as the most common ingredients that cause food allergies and intolerances. There are a number of ways in which allergen information can be provided to customers; you need to choose the method that is best for your business and the type of food you serve.

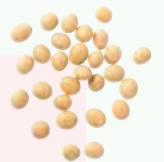

### GLUTEN

Gluten is the general name for the proteins found in wheat, rye, barley, oats and triticale, a cross between wheat and rye. Gluten is most often associated with wheat and wheat-containing foods that are abundant in our food supply.

### CRUSTACEANS

Crustaceans are invertebrates, and have soft, segmented bodies and jointed legs. People who react to one type of shellfish are likely to react to others. There is a high risk of cross-contamination among shellfish via fish counters or fish markets. Shellfish includes crab, lobster, prawns and scampi. A key ingredient to look out for is shrimp paste.

### SOY

Soy or soya is a food derived from the soya bean, which is a legume, and is found in edamame beans, miso paste and textured soya protein/tofu. It can also be found in desserts, ice cream, meat products, sauces and vegetarian products.

### SULPHUR DIOXIDE (SULPHITES)

The term 'sulphites' is a general term for a group of chemicals including sulphur dioxide and sodium or potassium metabisulphite.

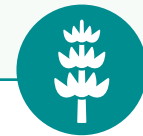

These are preservatives added to food and drinks to extend shelf life and can be found in dried fruit, meat products, soft drinks, tinned coconut milk, wine and beer.

### COW'S MILK

Symptoms of cow's milk allergy occur within seconds or minutes of contact. In its most extreme form, this allergy can result in anaphylaxis.

Cow's milk is also found in butter, cheese, cream, milk powders, yogurt, powdered soups, glazes and sauces.

### LUPIN

The lupin is well-known as a popular garden flower, but the seeds from some varieties are crushed to make lupin flour. This can be used as an ingredient in pastas and baked goods such as pastries, pies, waffles, pancakes, bread and pasta.

### MUSTARD

Mustard allergy is quite rare in the UK.

Liquid mustard, mustard powder and mustard seeds fall into this category. Mustard can be found in curries, breads, marinades, meat products, salad dressings, sauces and soups.

### CELERY

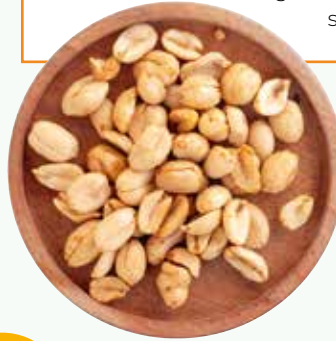

Those suffering from this allergy should avoid celery stalks, leaves, seeds, celery salt, salads, some meat products, soups and stock cubes.

There is the possibility that they could be allergic to celeriac.

### PEANUTS

Peanuts are part of the legume family and those with an allergy to peanuts increase the likelihood of an allergy to sesame and lupin. Peanut can be found in groundnut oil, peanut flour, satay sauce, curries and biscuits.

### SESAME

Sesame seeds can be white, black, brown or red, and can be found in a number of food products, including bread, breadsticks, hummous, halvah, sesame oil and tahini paste.

### FISH

The most popular varieties of fish eaten in the UK include cod, plaice, haddock, herring, trout, salmon and tuna. There are many other varieties and all are capable of triggering allergic reactions. Fish can also be found in fish sauces, salted dressings, stock cubes, Worcestershire sauce, relishes and pizzas.

### EGGS

One of the most common allergy-causing foods for children, eggs can be found in mayonnaise, pasta, glazes, mousses, sauces, pastries, quiche and meat products. Symptoms of egg allergy usually occur a few minutes to a few hours after eating.

### MOLLUSCS

Molluscs can be split into bivalves, gastropods and cephalopods. Molluscs include oysters, scallops, mussels, clams, snails, octopus and squid. They are often found in oyster sauce or in fish stews.

### TREE NUTS

Nut allergy is a hypersensitivity to dietary substances from tree nuts causing an overreaction of the immune system. Tree nuts include almonds, Brazil nuts, cashews, walnuts, hazelnuts, pecans, pistachios and macadamia nuts.

## WHAT YOU NEED TO KNOW

- You can no longer state that all foods 'could' contain allergens.
- You can no longer state that you don't know if an allergen is present.
- Verbal statements have to be backed up in writing if requested.
- Allergen ingredient information must be recorded on product specification sheets.
- Allergen information must be kept up to date.
- Consider the impact if you change recipes regarding allergen information.

---

### STAY COMPLIANT WITH NATASHA'S LAW

Under Natasha's Law, you must list all the ingredients on individual packaging of products that are considered prepacked for direct sale.

*\*legislation.gov.uk/eur/2017/1169/contents; "All allergen information was correct at time of going to print and Country Fare cannot be responsible for any inaccuracies or omissions in the information. Country Fare recommends that the product label is read carefully before using the products*

## SALTED CARAMEL & CHOCOLATE POT

Our rich and smooth Chocolate and Salted Caramel Pots make it so easy to create a luxurious dessert every time. Simply heat, chill and serve. They're not just easy to make, you can also make it your own - customise by adding inclusions like fruit and alcohol.

## MADAGASCAN VANILLA CRÈME BRÛLÉE

Our deluxe, smooth and rich Madagascan Vanilla Crème Brûlée featuring flecks of vanilla makes it a snap to create a cracking, creamy dessert every time. It's not just easy to make, it's also very easy to make it your own. Add extra flair to your creations and create fantastic flavours with extra inclusions like fruit or alcohol.

## NACHO CHEESE

Our mildly-spiced Nacho Cheese Sauce is a versatile sauce that's ideal for adding a little heat to savoury dishes and snacks. Made with real cheddar, its mildly spiced tang is just as at home on nachos, dirty fries and hotdogs as it is in more unexpected dishes like waffles, or as a creamy sauce base for chicken and pasta.

## SOUTHERN STYLE GRAVY

Our ready to use southern inspired chicken gravy is delicious when served as a dip for chicken and chips, drizzled over a burger or pizza, or as a sauce for classic country style chicken and grits. This simply clever sauce delivers consistent results every time, requiring minimum skillset.

# Savour a slice of England

As English as a cup of tea and queuing, Wyke Cheddar and Butter is made the right way in Somerset, using our old family recipe and 160 years of craft and tradition.

WYKEFARMS.COM

## Monkey Chop Cheese

In the lowlands of West Dorset, we are committed to creating our cheese as sustainably as possible.

From utilising solar energy to enable our cows to be milked in the dark to keeping bees to pollinate our wildflowers, fencing the river banks to protect wildlife habitats and building a

new lagoon to harvest the natural nutrients of the farm, our ethos is to prioritise conservation and sustainability in every way.

These initiatives mirror the love and care we have for our 270 cows which contributes to the utterly delicious, great tasting creamy cheese that we produce.

# *Fresh* **BAKERY**

A close-up photograph of a white ceramic bowl filled with a thick, golden-brown chutney. The chutney has a chunky texture and is garnished with a small sprig of fresh green herb. In the background, there are several fresh ingredients: a large, ripe red tomato, two bright red chili peppers, and some green leafy herbs, all resting on a dark wooden surface. The lighting is warm and focused on the bowl, creating a soft glow.

**LA TUA PASTA**

EST. 2006

La Tua Pasta has been crafting fresh-frozen pasta using simple, high-quality ingredients since 2006.

Made fresh daily with no shortcuts, every piece is individually frozen to lock in peak freshness. All fillings are prepared in-house, using slow-braised meats and whole vegetables for maximum flavour, catering to vegan and vegetarian diets.

Explore our wide range, including our signature hand-folded Tortelloni, Ravioli, plain & filled Gnocchi, and our twist on tradition: sweet-filled Mini Doughnuts.

All the pasta is made to order, and it cooks from frozen in just a few minutes.
