Prepared Produce

MAY

FRESH PRODUCE MARKET REPORT

May is a great month to get excited about summer produce. The expected warmer weather brings on a wealth of local produce, the pick of the bunch being **Asparagus** alongside lovely outdoor rhubarb. **Country Fare** continues to bring first of the season produce. For the month ahead:

- **UK Salad** - Local Fancy Leaf from Haywards, UK Little Gem's, cos and Iceberg. We will also see the first of the U.K. Baby leaves; Rocket, spinach and watercress.
- **New Forest Rainbow Chard**—available in May
- **Scraping Potatoes** from Cornwall and the Isle of Wight.

The South coast has a wealth of Local Asparagus, grown in Sopley, Isle of Wight and Brockenhurst. The climate and soil conditions give us perfect conditions for growing this amazing produce. We are a foodservice provider who is passionate about local produce and partners with local growers. The traditional asparagus season is short, it will finish towards the end of June, so make the most.

Fruit

Local New-Forest Strawberries have started, this award winning strawberry is packed full of flavour. We hope to have our **chefs day out** again this year, date to be confirmed via social media.

All other Berries are available with daily deliveries in the market. **Red Currants** are still very expensive from **Chile**. **Spanish/French Peaches, Nectarines, Red Cherries** and **Apricots** should start this month, but will still be expensive until the season gets underway.

Melons – New season Spanish **Galia, Cantaloupe** and **Watermelon**. We have seen some very high prices on melons over the winter due to weather impacting crops. Recent weather in Spain is showing signs the Spanish season will be expensive too.

Imported Apples will slowly move over to be sourced from Southern hemisphere. Price in-

British Tomato Fortnight

1st June – 14th June

This two week event, the British Tomato Fortnight will be celebrating this amazing product in conjunction with the '**British Tomato Growers' Association**'.

Did You Know?

British tomato production amounts to about 100,000 metric tonnes per year - about a fifth of the total volume of tomatoes sold in the country through the year, and up to a half in the summer.

Salad

We are stocking a **plastic free cucumber** again this year, this in turn removes unnecessary waste from the supply chain. On average this takes out **3500** single pieces of plastic a week from our chain.

British English Salad - **Lollo Rosso, Oak, Biondi, Iceberg, Flat Lettuce, Little Gem** and **Cos** will start towards the end of the month, Weather permitting. Planting conditions have been favourable this spring, so we are hopeful for a great UK Lettuce season this year.

Baby Leaves – We will see **Uk Spinach, Rocket, Red Leaf** and **Red Chard** start. **The Watercress Co.** will have local standard and baby cress.

Vegetables

Rainbow Chard – Local Hampshire, is due to start this month. At this time of year root vegetables like Parsnips, **Swede, Celeriac** and **Turnips** are all best avoided but are still available. Old crop **English Carrots** will finish this month; we work closely with Bartlett's to make sure old season crop isn't to much of an issue.

English Spring Cabbage are fantastic, new season **Primo Cabbage** due in mid-month. **Savoy** is still being imported from **Portugal** and **Spain**, but are more expensive due to import. **Overwintered U.K. Cauliflower** is excellent and price is still very reasonable. New season summer **English Cauliflower** is due in at the end of the month, but be warned it will be a bit yellow and small.

Potatoes see much less issues this year due to the positive harvest we had in Autumn 2025. Prices have been stable and quality remains good. Planting for this season has also been a great success, with near on perfect conditions.

Fresh Peas in the pod, **Broad Beans** and **Runner Beans** have arrived from Spain/Italy, the local produce is due in next month.
