June

FRESH PRODUCE MARKET REPORT

The warm summer months should bring an abundance of excellent **British** and **Local Produce** that will add a seasonal flavour to any menu. Many of our local producers in **Hampshire, Dorset & Isle of Wight** supply us daily with **seasonal produce**. Country Fare will continue to source the best quality local produce at the best price. New this Month:

- Isle of Wight scraping potatoes (Charlotte)
- U.K. Raspberries and Blueberries
- Peas in the Pod
- Nectarines and Peaches
- Cherries (French & Spanish)
- Radish; Rainbow, White Tipped and Red

There are
35,000

hectares of peas grown in the UK each year, equivalent to about

70,000

football pitches. This produces

160,000

tonnes of frozen peas - that's

2 billion

80 gram portions

The first peas were frozen by **Clarence Birdseye** who invented the 'plate froster' to preserve foods in the 1920's

Plan Ahead

Great British Pea

At Country Fare we work with our long standing supplier to gain the best produce throughout the season.

Summer brings some amazing British produce into the market and we support as much local and UK grown produce as we can. From Potatoes to Lettuce and Blueberries to Herbs we feel its important to support farmers and growers in this country.

Fruit

Local Dorset and Hampshire Strawberries are superb and will be available from now to November. **English Raspberries** and **New Forest Blueberries** are also very good. **Tayber-**

ries from **Sopley Farm** will be available mid June for a short season. **Trehane's Dorset Blueberries** will be available mid to late July. **English Gooseberries** will appear in the market in June, availability will be patchy due to the short season and lack of growers... so get them while you can. **Peaches** and **Nectarines** are improving. The first of the **Donut** or **Flat Peach** have started they are superb. **Spanish Cherries** have started and quality and size this year are very good. U.K. shouldn't be far behind them. **Apricots** have also begun, price on the stone fruit should ease as volumes

EUROPEAN BLACK SUMMER TRUFFLE (tuber *Aestivum*) or The summer truffle, found in almost all European countries. It has a rich woody aroma with flavours of garlic, wild mushroom and earthy hazelnut undertones.

AUSTRALIAN BLACK WINTER TRUFFLE (tuber *melanosporum*) considered the best black truffles in the world. These come into the country in June and have an amazing scent and flavour. They command a high price but you won't find a better black truffle.

Salad

Tomatoes are excellent, from small **Cherry Vine** to large **Plum Tomatoes**. **Local Nutbourne tomatoes** are new to us this year and have been stunning so far. **English Salad** is fantastic; Norfolk grown **Iceberg**, **Cos** and **Little Gem**; are harvested freshly every day. **U.K. Spinach**, **Roquette**, **Watercress**, **Lollo Rosso**, **Oak Leaf** and **Biondi** are excellent now and are relatively low in price so it's time to jazz up your salads. **New Forest Summer herbs** are at their best garnish.

Vegetables

Local Isle of Wight Asparagus is still excellent, supply will last until summer solstice, sadly it will end and the only option will be **Peruvian**. **English Broccoli** - 4.5kg iced has just started. **Cauliflower** has been stable, **summer Cauliflower** can be small and slightly yellow. The new kids on the block this month are **English Peas in the Pod**, **Broad**, and **Runner Beans**. **French Globe Artichokes** are big-hearted with fleshy petals and a peppery flavour, we are also able to offer a **Local Smaller Globe Artichoke**. **Purple Sprouting** is still out this month. **Chantenay Carrots** are now from Spain, the English season has finished. **Local Jerusalem Artichokes** will be available mid June. **New Season U.K. Kale & Spring Greens** have been arriving daily. **Root Vegetables (Carrots, Parsnips etc)**, **Potatoes** and **Onions** can be difficult at this time of year with shortages of products and high prices, caution using these on the menu until new season start in July/ Aug.

New Season Mids are a great alternative to old season potatoes with light skin and creamy flesh!
